To carry out concrete actions, we continue developing a database of all the institutions belonging to COCTI/CICT. We thank all of you who have already completed the form. The idea of this database is to allow us to create a communication policy aimed primarily at Deans and Directors and, particularly, to have certain information that will enable us to mediate more adequately in the collaboration needs. In this context, we ask you to complete this short form (either yourselves or through someone you delegate). If you believe any member institution still needs to receive this letter, please forward it to them so they have the most complete information possible. Here is the link to the form:

On behalf of the COCTI Executive Committee, we wish you every success and remain available for any inquiries.

Sincerely,

Rev. Prof. Dr. Waldecir Gonzaga.
